

## 1.7 RS485 BUS CONNECTOR

### 1.7.1 Order Data

	
Model Number	Short Description
0G1000.00-090	Bus Connector, RS485, for PROFIBUS Networks, remote I/O

### 1.7.2 General Information

The RS485 bus connector is used to connect a controller to remote I/O, in a PROFIBUS network or in a RS485 network. The termination resistor is integrated in the bus connector. The terminating resistor can be turned on or off.
