Table 3: 8B0M0260HW00.000-1 - Technical data

- 1) Valid under the following conditions: 40°C ambient temperature, installation elevation <500 m above sea level.
- 2) Corresponds to the proportionate power consumption of the fan modules in the mounting plate.
- 3) Continuous operation of ACOPOSmulti mounting plates at an installation elevation of 500 m to 4000 m above sea level is possible when taking the specified reduction in continuous power into account. Requirements that go beyond this must be arranged with B&R.
- 4) Continuous operation of ACOPOSmulti mounting plates at ambient temperatures from 40°C to max. 55°C is possible when taking the specified continuous power reductions into account.
- 5) The dimensions define the size of the mounting plate. Additional spacing above and below the backplanes must be taken into account for mounting, connections and air circulation.

4 Status LED

Information:

The fan modules on the underside of 8B0M mounting plates are equipped with a status LED.

Label	Color	Function	Description
Fan module	Green/Red	Ready/Error	LED off
			LED lit red
			LED lit green

Table 4: LED status indicator 8BXF002.0000-00

Information:

The ACOPOSmulti drive system has no way of detecting whether the fans in the fan modules of the mounting plate or the module-internal fans are actually rotating.

5 Dimension diagram and installation dimensions

Information:

nnnn indicates the number of slots (0160 equals 16 slots).
