

1.6 AC916 BUS TERMINATION, RS485 ACTIVE

1.6.1 Order Data

	
Model Number	Short Description
0AC916.9	Bus Termination, RS485, active, for PROFIBUS networks, remote I/O, standard mounting rail installation, supply voltage: 120 / 230 VAC

1.6.2 General Information

An active bus termination is available for PROFIBUS networks and remote I/O. The active bus termination allows the network to be terminated independent of the supply for the communication modules. The supply voltage for the active bus termination is 120 / 230 VAC.
